Surebridge

## The PeopleSoft Experts

### SITUATION ANALYSIS

Today, customer expectations run high. With so much competition in the marketplace, a high quality product isn't enough. Customers demand increased efficiency throughout the entire supply chain cycle, capabilities that advance collaboration and reliable service they can access anytime, anywhere.

Only optimized resource planning — performed on a real-time basis — can provide you with the enhanced functionality necessary to achieve a significant competitive advantage over your rivals. And only PeopleSoft 8 — with its 58 new collaborative applications — offers a truly complete enterprise solution for manufacturing, professional, financial and retail services. Surebridge — a PeopleSoft partner — will quickly deploy and effectively manage these solutions for you.

### BUSINESS BENEFITS

PeopleSoft's best-in-class functionality is 100% Web-enabled! And its industry-leading Internet architecture provides a pure Internet environment for your eBusiness solutions. PeopleSoft 8 applications — delivered over a standard Internet browser — empowers organizations to create collaborative networks between customers, employees and suppliers. The shared access — combined with the benefits of increased automation — lets you manage your eCommerce relationships with extraordinary efficiency.

Quickly deployed and easy-to-use, PeopleSoft 8 offers comprehensive management solutions that include customer relationship, human resources, eCommerce and eProcurement applications. These strong, stable, tightly integrated modules are combined within a robust solution that function across your enterprise.

To make better business decisions faster — you need the level of business intelligence offered by PeopleSoft's eBusiness analytics. And PeopleSoft permits flexible — incremental — deployment of modules that can scale up to meet the needs of your growing business.

**COMPREHENSIVE SOLUTION**

PeopleSoft supplies the applications and Surebridge creates the solution. Surebridge is a full-service Application Service Provider (ASP) enabling mid-size companies access to world-class solutions, high-quality services at an affordable price. Together, these leading-edge companies will increase your company's efficiency and extend your process automation capabilities. At the same time, Surebridge will relieve you of day-to-day system management and allow you to focus on your core competencies. With Surebridge's managed hosting solution, your company will:

- **Gain access** to leading enterprise applications, solution experts and IT infrastructure
- **Free your IT staff** to focus on strategic issues
- **Reduce total cost of ownership** — as compared to in-house implementation
- **Improve customer service**
- **Achieve your business goals** with a single-point-of-contact who knows your business' needs
- **Rapid deployment** of PeopleSoft 8 in a time frame of 4 weeks — 6 months

**THE SUREBRIDGE ADVANTAGE**

Surebridge — a PeopleSoft ASP partner — employs a large team of PeopleSoft experts. Our extensive knowledge of the industry and flexible solutions enable you to fully leverage PeopleSoft 8 and create cross-module processes that increase your ROI. Underlying our expertise is a total dedication to customer service, as exemplified by our single-point-of-contact policy.

Surebridge's cutting-edge technology enables mid-size organizations like yours to compete in today's rapidly changing marketplace. Surebridge — leveraging its unique "e" process Methodology — ensures rapid deployment, enhanced application performance. Overall quality is also a hallmark of our end-to-end approach to providing technology solutions. Surebridge — beginning with a needs assessment and analysis of your organization — quickly tailors the right combination of PeopleSoft applications to create a solution that completely meets the needs of your company.
