

The image features a central photograph of two men in business suits shaking hands in front of a row of classical stone columns. The scene is bathed in a warm, golden light. The background is a composite of blue-tinted images: the top shows a close-up of a US dollar bill, and the bottom shows a stock market ticker board with various numbers and fractions like 26 3/16, 26 1/2, 8 5/8, and 6 5/8. The overall composition suggests a theme of financial partnership and success.

PROGRESS
SOFTWARE

Progress Software

**Providing Total Business Solutions for
the Financial Services Industry.**

Web and ASP-enablement technology for fast and cost-effective access to applications via the Internet. Open, scalable, and reliable products that get the job done. A portfolio of packaged software applications from more than 2,000 Progress independent software vendors (ISVs). And a complete offering of Professional Services — Consulting, Education, and Technical. Progress delivers Total Business Solutions for the Financial Services marketplace.

"We have built a lot of capabilities with the Progress suite. Now we have a single system that performs student loan origination and servicing capabilities from both the Web and our internal network via client/server technology."

*Greg Van Pelt
Vice President of Systems and Technology
Educaid*

Industry Leaders Rely on Progress Software.

Through its products and partnerships, Progress Software provides financial solutions to companies like Educaid, Franklin Templeton Investments, Commercial Union York Insurance, Datk Online Holding Corp., Pioneer Financial Services and many more.

Below is a representative case study from *A Guide to Partnered Solutions for Financial Services*. To get your FREE guide, follow the instructions in this brochure.

Educaid Takes Student Loans to the Internet with Progress and Partner.

With the awesome task of processing nearly 150,000 loans each year, Educaid, a First Union Company, turned to Progress Software and The Benedict Group, for a fully automated, Web-based solution. As Greg Van Pelt, Educaid's VP of Systems and Technology attests, "With our new system, we've established a solid foundation that allows us to continue to grow without worrying about changing the technology. The integrated Progress suite allows us to offer many services to our customers. Development is fast and easy, and the support we've received from The Benedict Group has been terrific."
