

...YOU'RE GONNA NEED THESE!

Look Beyond Today's

TRANSFORMING YOUR BUSINESS FUTURE WITH SOLARIS 7

Use these glasses to see a new dimension of Solaris... both here and when you attend the virtual seminar.

A futuristic green tunnel with a planet in the center. The tunnel is composed of concentric green circles and radial lines, creating a perspective effect. In the center of the tunnel is a reddish-brown planet with a blue ring, set against a dark space background with a few stars.

TO LOOK INTO YOUR
BUSINESS FUTURE...

ATTEND A 3-D WEB SEMINAR FROM SUN AND SEE THE NEW DIMENSION THAT **SOLARIS™ 7** BRINGS TO YOUR BUSINESS FUTURE.

The Internet. Intranets. E-commerce. Enterprise Resource Planning. EDA. Data warehousing. It's no secret that your network is already being pushed to the limit. What new demands will it face tomorrow? To meet the challenges of the future, you've got to look beyond today. To a new dimension of the Solaris™ software environment — Solaris 7.

To discover the unmatched levels of performance, scalability, reliability, and security the Solaris 7 software environment delivers... to see how it can take your business from where it is today to where it needs to go tomorrow... you must attend...

Look Beyond Today: TRANSFORMING YOUR BUSINESS FUTURE WITH SOLARIS 7.

AN INTERACTIVE WEB SEMINAR ENHANCED WITH 3-D!

This exciting, dynamic program — presented on the Web — will give you a close, in-depth look at Solaris 7. You'll discover how Solaris 7— with its enhanced reliability and scalability, 64-bit computing capabilities, and PC interoperability — is the solution you need to meet your most demanding network challenges.

Thanks to its new customization capabilities, Solaris 7 meets the unique needs of Internet Service Providers, Enterprise, and Workgroup/Departmental systems. It unleashes the full power of SPARC™ and Intel-based computers, and its enhanced Java™ technology supercharges ERP, data warehousing, and Web search engine applications. The Solaris 7 software environment delivers a responsive, cost-effective, user-based solution where information is accessible — anytime, anywhere.

HERE'S WHAT YOU'RE GONNA EXPERIENCE...

"Excite is one of the most highly-trafficked sites on the Internet. We depend on Solaris/SPARC and Sun development tools for a solid, reliable foundation that will expand smoothly, even as fast as Excite is growing."

— Jon Prall,
Vice President of Network Operations
Excite, Inc.

PROGRAM AGENDA

Following a welcoming address from Richard Green, Vice President, Solaris Software, you'll choose from five dynamic information tracks:

- **Executive** — As your business needs become more challenging, do you have the software environment that can take you through your most critical business transformations... a software environment that can look beyond today?
- **Enterprise** — You depend on the Internet for more and more of your networking needs — facilitating employee communications or implementing an extranet to better service customers. Will your software environment help you empower — rather than limit — the capabilities of your enterprise?
- **Workgroup/Departmental** — Interoperability. That's your key challenge. You need a software environment where Unix® and MS-Windows work together seamlessly... where everyone can communicate with everyone else. You need an environment that is easy to install and administer, and unleashes the full capabilities of your LAN.
- **ISP** — Your business. It is the Internet. Will your software environment help you continually improve the economics of delivering basic access and value-added services to your customers? Learn how you can combine highly scalable services in a secure environment — one that leverages Java technology, and is "tuned" just for you.
- **Developer** — Time frames continue to shrink as time-to-market becomes a driving force of development. Imagine a software environment that embraces C, C++, Fortran and Java technology, and lets you create applications to meet your changing needs. And... it offers both 32-bit computing for today's applications, and true 64-bit for the most demanding applications of tomorrow.

sun.com/solaris/seminar/

By selecting the track that fits your interests, you'll experience a tailored program — one that will address the precise issues and challenges you face as you look into your business future.

You'll also get an "insider's" perspective as Distinguished Sun Engineers explore the technical benefits of the Solaris 7 software environment. Want more detailed information? Browse through our technical FAQs for the answers you need.

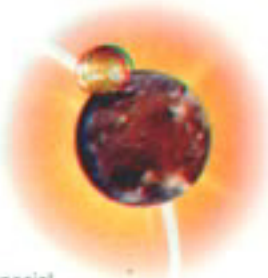

IT'S VIRTUAL... IT'S FREE... IT'S ENHANCED WITH 3-D!

FREE when you participate! Sun has put together a wealth of information about the Solaris 7 product line, tailored to your unique interests. You can get the information you need online. Or you can request our **FREE Solaris 7 Information Kit** that includes special upgrade and promotional offers!

IT'S EASY TO PARTICIPATE!

To attend this exciting, interactive program, simply grab your 3-D glasses and log onto our special URL: sun.com/solaris/seminar/ right away! You'll be asked to provide your special **Seminar Access Number**, found next to your name and address on the reverse side of this brochure. Once you've logged on, you may experience **Look Beyond Today** at your own pace — at anytime that's convenient for you.

Don't miss out on this unique event. And don't forget your 3-D glasses!
